

### Time to Get Back To Basics

Whether you are brand new to optical or looking for a refresher, Back To Basics training is here to build a solid foundation as an optician. This complimentary series offers three course options in the month of May, choose to take 1, 2 or all 3 courses.

#### OPTICS 101

##### Optics 101 - May 12 at 11:00 AM CST

Topics Covered

- Advantages and disadvantages of different lens materials
- Characteristics of lens materials that make them each different including index of refraction, ABBE value and weight

#### OPTICS 102

##### Optics 102- May 19 at 11:00 AM CST

Topics Covered

- Digital single vision lenses and why they are better than standard single vision
- What makes compensated lenses different
- Why UV protection is important
- The significance of boxing systems when getting a patient the best pair of glasses for visual purposes as well as cosmetic

#### OPTICS 103

##### Optics 103 - May 26 at 11:00 AM CST

Topics Covered

- Importance of proper fitting techniques when measuring for single vision, bifocals or progressive lenses
- What effects lens thickness in a patient's glasses and how can you calculate if the frame choice that was made by the patient is the best for them when it comes to thickness

Register today for 1, 2 or all 3 courses at [www.ecpadvantage.com](http://www.ecpadvantage.com).
